DETAILED ACTION

Allowable Subject Matter

1. The indicated allowability of claims 1-24 is withdrawn in view of the following rejection. The claims remain allowable over the prior art.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-24 rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for fibromyalgia, does not reasonably provide enablement for all of the disorders cited in the claims. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. While the specification enables for the treatment of fibromyalgia, there is no teaching about the treatment of these various disorders.
